

My Chiropractic Success Story...

Symptoms Before Treatment:

Medications I was on:

- Foot pain
- Generalized muscle aches
- Joint pain (Shoulder, elbows, knees, hands, feet, hip)
- Back and neck pain the entire length of spine
- Difficulty breathing (Rib cage felt "locked")
- Persistent cough and shortness of breath

- Dulera Inhaler and Combivent Inhaler
- Nebulizer, Ipratropium Bromide, Albuterol Sulfate and Cetirizine
- Prednisone (4x last year)
- Advil

Improvements in My Life:

- Pain free after course of treatment
- Breathing easy without SOB
- No cough
- Off all meds including asthma inhaler
- Normal Spirometry
- Normal labs including ANA and RF

Why I would recommend Select-Care Chiropractic, P.C.:

- Use a natural systematic approach to wellness
- Able to address problems and issues that a layman would not expect Chiropractic Care would help, such as asthma!!!
- I had chronic pain for 25 years and now I am pain free

I give Select-Care Chiropractic, P.C. rights to share my Chiropractic Success Story with others.
Only first names will be used.
